Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

I still do not understand the state's approval that allowed Duke to take over Progress Energy. In my opinion, Progress Energy had proved itself to be a good corporate citizen. Although I had not had personal experience with Duke, its reputation suggested otherwise for it. Also the cozy relationship between Duke, the Governor et al leads one to be suspicious.

Sincerely,

Sue Patterson
